Story highlights A 3-year-old in the UK fell from a cliff and hit her head Her parents discovered her unconscious at the bottom of the cliff She was rescued and hospitalised A 3-year-old British girl fell down a 20-meter (65-foot) cliff and hit her head, falling unconscious and hitting a tree on the way down, police said Tuesday. Shelby Wright was climbing a fence along with her brother and several other children at their home in Church Stretton, in northwest England, when she slipped and fell down the cliff's rocky edge, said Detective Inspector Jamie Barker of the West Midlands Police. Her father tried to get a closer look at what had happened and she hit her head, Barker said. He found her when he went to the foot of the cliff, but as he started to carry her up the steep slope, she lost consciousness again, he said. When the child's mother went down the cliff to help, her husband told her that Shelby had slipped again and hit her head. Police were called, and after they arrived, they found Shelby on the ground unconscious. She was taken to a local hospital, where doctors stabilized her. Her parents told police that they were inexperienced climbers and that they had been warned not to climb along the edge of the cliff by the parents of other children who had been there before them, Barker said. "They are definitely going to be discussing the safety aspect

What's New in the?

For the first time, Autodesk has introduced an import function that enables a person to write notes in an electronic file. Previously, a person would have to manually create the import drawing file and change the drawing. The Markup Import function of AutoCAD 2023 enables you to import a paper drawing (paper drawing import) or import a PDF (PDF import) into your drawing. A person can input notes into a paper drawing and import those notes into AutoCAD for use in the drawing. The person can insert a new block in AutoCAD or annotate an existing block. The PDF import function enables you to import a PDF of a completed drawing into your drawing. A person can annotate existing elements of a drawing or insert a new block into the drawing. Important Before using these new functions, make sure to ensure the following: • You have been updated to AutoCAD 2023. You will be prompted to update to the newest version of AutoCAD in the following way: • On a Windows system, open the C:\Program Files\Autodesk\AutoCAD 2020\AutoCAD 2020.exe and AutoCAD 2020.exe shortcuts, right-click, and choose Properties. • On a Mac, open the Applications folder and double-click on the Autodesk 2020 or AutoCAD 2020 file. On the dialog that opens, select the options "Launch Automatically When I Connect to the Internet" or "Launch Automatically When I Connect to Wi-Fi" from the Open AutoCAD Automatically drop-down menu. • Verify that the "Yes" box is checked for "Automatically download and install updates" in the "Software Updates" section of the dialog. • Update AutoCAD. • Refresh your browser and then try to update again. A few years ago, you had to create a copy of your drawing to use it as a paper drawing. Now, you can use the Markup Import function to import changes to your drawing into the same drawing. Import Process: You can import existing drawing or new drawing into your drawing using the Markup Import function. The Markup Import function allows you to add text, markup blocks, and symbols, and import them into your drawing. You can import new blocks, edit blocks, and add annotations to the blocks.
